

Baseball & Softball

ON DECK

October, 2008

www.elburn.com/baseball

Hello,

Fall is here. It is a slow time for Elburn Baseball & Softball, but what a great time for Chicago sports fans. The Cubs are gearing up for the postseason, and as I write this the Sox are fighting for their postseason opportunity.

Over the past several weeks we have been working on the shed at John Stewart. This is a joint venture with Elburn Basketball. We are approximately 75% finished at this point. If you are interested in helping to finish this project, please contact me at jam880@sbcglobal.net. We could definitely use some help with the overhead door. If you or someone you know has some experience installing an overhead garage door, your help will be greatly appreciated. The shed will allow us to keep the machinery and tools at John Stewart for maintenance.

Please note that the monthly EBS meetings will be moving to the first Thursday of every month, 7pm @ the Town and Country Library. As always, everyone is welcome and encouraged to attend.

We are still looking for some help with field maintenance for next season. Ideally, we need several people to take over the job that John Van Bogaert has been doing. Now is the time to get involved because John is willing to stick around to essentially "mentor" the new volunteers. Remember, without a park district, it falls upon us as parents to maintain these facilities.

Thanks for being involved with EBS.

Jeff McDonald

GO CUBS!!

Ok. Go Sox also.
